

NOTICE

Dated: 24-06-2019

The ICAR through the National Higher Agricultural Education project (NAHEP) with funds from World Bank and Government of India has awarded a student centric sub-component Institutional Development Plan (IDP) to Acharya N.G. Ranga Agricultural University vide sanction No. F. No. NAHEP/IDP-07/02/2018-19 Dated: 27-09-2018. The project mainly aimed at bringing phenomenal changes in quality of agricultural education through leveraging ICT resources, designing course curricula to meet the challenges, development of advanced laboratories through Central Instrumentation Cells and to enhance the competitive abilities of staff and students. In this context, there is every need to establish infrastructure facilities in the accredited college with virtual/ smart class rooms, model laboratories with CIC which will provide an opportunity for skill-oriented training programmes for students, to explore newer techniques and methods and to do advanced research. Further in the IDP it is also felt to develop alumni linkages since alumni of any institute is backbone for its development. In this context, the University has thought to develop a alumni web portal.

In this context, Acharya N G Ranga Agricultural University invites the quotation for the purchase of Trinocular Florescence Microscope for the Central Instrumentation Cell of accredited colleges. The detailed Request for Quotations (RFQ) for the purchase of Trinocular Florescence Microscope for the ANGRAU is available on www.angrau.ac.in. Interested firms can submit their quotations on or before 12-07-2019 5.00PM
